Don't Forget

¶ Although a man may spend millions in advertising, he is poorly advertised if he cannot be found in the Directory.

¶ A large portion of good advertising reaches those who are not ready to buy, and when they are ready, they must consult the Directory.

¶ If you advertise at all, put your advertisement in the Directory and get the full benefit of all the other advertising you are paying for.

¶ But above all, have your advertisement in the Directory in order that you may be easily found by those who look—at the time they intend to buy.

¶ The CLASSIFIED LISTS in the Directory are the greatest *Buyers' Guide* in the World.

The Reason

Why the CITY DIRECTORY is in the front rank as an advertising medium is because it has builded for the respectable and responsible buyer as well as for the respectable and responsible seller and has brought them together in the right way by making the right kind of people acquainted with each other.

CENTRAL CYCLE AND VULCANIZING WORKS

General Repairs *Cycle Repairs . .*

Vulcanizing our Specialty

There may be a personality behind our work, there is a personality *in* our work—the best on earth.

It has been said that people like to be humbugged—that is untrue. It is too humiliating and no one enjoys that.

Good things are catching as well as bad, and all broad-minded persons realize the best purchase is the wisest, for in every tire or tube repaired by us is Barnes' integrity and honest workmanship,

Ours is the work you should have at the price, which is less than its value. Our service spells satisfaction guaranteed, our work pleasing to behold.

LUMBER AND BUILDING MATERIAL

High-Grade Interior Finish, Sash Doors, Etc.

MAPLE AND BIRCH HARDWOOD AND PARQUETRY FLOORING A SPECIALTY

Costing a little more than Fir, and as to beauty and lasting qualities, there is no comparison

Congo Roofing, Ruberoid Roofing, Building Paper
Comfort Felt, Cement, Lime, Wood Fibre Brick

And all kinds of Building Material

We point with pride to the many fine new homes in
Calgary, for nearly all of them contain our Lumber.

THERE'S A REASON!

Demanding the best Lumber turned out by the
biggest Mills equipped to make fine Lumber,
and buying in such large quantities that we can
afford to sell clean, thoroughly sound and seasoned
Lumber for the same price that most dealers ask
for poorly manufactured, green Lumber.

Mr. Businessman:

There is no reason why you or your stenographer should leave your office with soiled hands when we can supply you with one of our handsome Cabinets with mirror front, containing Hair Brush and Comb, Whisk, Toilet Soap and Towels, for the small sum of \$1.00 per month.

Our Towels are pure Irish linen imported from Belfast through our local dealer, and made especially for us.

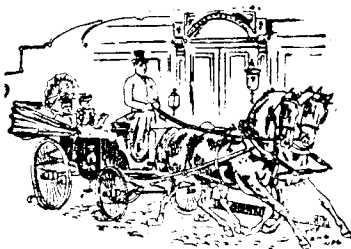

Our arrangements for laundering these towels enables us to guarantee absolute sanitary conditions. We also make a specialty in supplying Dental Parlors and Barber Shops with a special line of towels suitable for their work. Our driver will call each week and remove all soiled towels, and leave a clean supply.

24 McDougall Block, Calgary, Alberta

Entered according to Act of Parliament of Canada, in the year One Thousand Nine Hundred and Eleven by Henderson Directories Alberta, Limited, in the Office of the Minister of Agriculture.

Introductory.

The sixth annual edition of Henderson's Calgary City Directory is herewith presented, with the assurance that we are giving to our patrons a City Directory that is as near perfection as an experienced and thorough organization can produce.

The work in making the Calgary Directory, directly from the commencement of enumeration, compiling, printing and binding to its delivery, has only occupied but sixty days.

The City has shown such a great increase that we have adopted a larger size page, using a smaller face of type to make the work more convenient for handy reference.

City of Calgary

Calgary, the gateway to the "Last Great West," is the most important city between Winnipeg and Vancouver. It is situated on the main line of the C.P.R. and at the confluence of the Bow and Elbow Rivers, and is surrounded by the best grain producing and cattle raising mixed farming in all Canada. It is 860 miles west of Winnipeg and 640 east of Vancouver, and is the commercial metropolis of the vast area of 1,000 miles from east to west and from the 49th parallel to the Arctic Circle. It is the commercial, educational and financial metropolis of the West. All of the leading Eastern manufacturers and wholesale houses are represented here by 750 commercial travelers, who are all registered on the books of the U. C. T. Ass'n.

It was incorporated as a town in 1892. In 1884 it consisted of merely a few tents, mostly occupied by Indians and pioneers who decided to make the West their home. In 1894 it was incorporated into a city with a population of only 6,000. In 1903 Calgary had a population of approximately 8,000. During the last short eight years Calgary has grown to be a metropolitan city of approximately 60,000 people.

Calgary is the railway centre of Alberta. The C.P.R. employs 2,000 hands in Calgary and district, its payroll amounting to \$3,500,000 per year. The Edmonton branch and the Macleod branch of the C.P.R. run north and south from the city. In addition, the G.T.P., the C.N.R. and the Great Northern are all heading towards Calgary; in fact, all three of these roads are now grading into Calgary. This, of course, means that at least another 2,000 men will be put to work before the end of the present year.

Calgary is the western headquarters of the C.P.R. The General Superintendent and his large staff of officials and clerks make Calgary their headquarters. This means that all the vast business conducted throughout the West by the C.P.R. from Moosejaw to Laggan is transacted by the offices in Calgary.

The principal sources from which the city has received its expansion are the fact that it is the distributing centre from both the wholesale and jobbing points of view, and also because of the fact that the district adjacent to the city offers more opportunities to the capitalist, financier and commercial man than any other point on the Continent of America. In the city limits there is sufficient sandstone and brick clay to supply a city of one-half million population, and adjacent to the city there is enough of these natural resources to supply the Dominion of Canada for many years to come. Southern Alberta in particular is fortunately in a position to offer the farmer, the rancher, and every person who has energetic ability, enough to make every provision for his future.

Calgary is the seat of the milling industry of the great West, but it also holds plants manufacturing Portland cement, soap and lumber, iron foundries, packing and abattoir plants, and many others. In addition to this, the discovery of natural gas within the city and adjacent to it has given an impetus to the encouragement of numerous industries, and that valuable asset now supplies power to many of these plants

and also to the lighting of East Calgary. Too much importance cannot be accredited to this discovery, and its value is now engaging the attention of the City Commissioners and Board of Aldermen. Cheaper power will, it is expected, be given to manufactories of this sort about the years 1912 and 1913, when the gas will have been piped into Calgary.

All the new business blocks of Calgary are of substantial construction, built generally of stone and steel. At the present time there are in course of construction buildings which are to be erected at a cost of from \$1,000,000 to \$1,500,000. All the material for the erection of all buildings can be supplied on the spot.

Calgary is municipally owned, controlled and operated. Each branch of the city's service is under civic control. During 1910 the street railway system, which at the present time consists of about 40 miles of trackage and some thirty cars, netted the city, above all expenses, 18 per cent. on an investment of \$500,000. Before the close of 1911 an additional \$500,000 will be spent in extending this system. The electric light and power department, which is controlled by the Commissioners, in 1910 netted the city a profit of \$34,000, exclusive of all contingent debenture interest and other funds. The water-works system, which at the present time consists of some 100 miles, is being largely increased. During 1910 this system gave the city a profit of \$4,000, and this in spite of the fact that in a rapidly growing city like Calgary we are of necessity obliged to lay mains in suburban districts where connections are few and far between. It can be easily understood, therefore, that the cost of laying mains in the outlying districts is just as great as the up-town districts, where connections are easily made at the same expense every twenty-five feet.

The climate of Southern Alberta and the district surrounding it is ideal, and on account of its altitude, which is 3,400 feet above sea level, Calgary has long been favorably noted for its beneficent climatic attributes.

Calgary's educational advantages are of most import, and its modern equipped school buildings furnish every requirement to make them most perfect. The eighteen public school buildings in the city are exceptionally attractive. There are also a number of private schools, including Western Canada, Mount Royal College (Methodist), St. Hilda's Girls' College, Bishop Pinkham College, the Sacred Heart (R. C.) Convent, and several business colleges.

The city is well provided with parks, comprising some 450 acres. Five of these are located in the centre of the city, and give every opportunity to the young and old to enjoy themselves as they wish. Band and orchestral concerts are given every night in one or other of these parks. The city has also arranged for a park in the suburbs, which will be at once provided with street car accommodation.

Calgary is the headquarters for all the livestock associations in Alberta. The annual Horse Show, held in connection with the Cattle Breeders' and Horse Breeders' Associations, has for the past two years made an enviable

reputation for itself. At this annual show more pure-bred cattle, fat-bred cattle and pure-bred horses are shown than at any other exhibition of its kind in all the world.

Of great importance to the neighborhood is the fact that the Provincial Government of Alberta have established throughout the Province Government Creameries and Cold Storage Plants, situated within a short distance of Calgary. Of course, this means that Calgary is the distributing centre for these products. Further significance on this last-mentioned point is lent by the C.P.R., whose irrigation policy is in no small way revolutionizing the farming and ranching industry throughout Southern Alberta. Up to date they have expended at least over \$15,000,000, and are now expending at least an additional \$15,000,000 to complete their irrigation system from Bassano to Medicine Hat, a distance of about 75 miles.

POPULATION 60,000.

Municipally owned, controlled and operated.

The most progressive city in the most progressive West.

Financial, commercial and educational metropolis of the area lying between Winnipeg and Vancouver, and from the 49th parallel to the Arctic Circle.

The City of Possibilities.

The City of Opportunities.

The City of Certainties.

The City of Destiny.

The City of Industries.

Assessment for 1911, \$53,747,600, on a two-thirds valuation of the property assessed.

Tax rate, 14½ mills.

Industrial sites offered at cost price to the city. Assessment fixed at not over \$3,000 per acre until Jan. 1st, 1918. Buildings and stock exempt from taxation until same date.

Calgary is six miles square. Six miles from north to south and six miles from east to west.

Seventy miles of sewers now installed and thirty more to be installed during 1911.

Sewage disposal plant to be installed on Bow River during 1911.

In July, 1911, over \$150,000 was paid out by the City Treasurer for wages. This amount does not include salaries or wages paid by paving sidewalk or other contractors who are doing work for the city.

First mortgages furnish an interest rate of from five to eight per cent., according to amount of loan.

Building material of all kinds can be found in abundant quantities within the city limits and adjacent to the district.

Twenty-six fraternal societies have branch lodges in Calgary.

An indication of the largely increased business being transacted in Calgary is forcibly shown by the civic license department. During 1910 the receipts were \$53,000. The receipts for the first seven months of 1911 were \$65,000, and will reach at least \$75,000 before the close of the year.

All western railroads are heading towards Calgary as rapidly as possible.

The Calgary Industrial Exhibition, held in the first week in July each year, is favored with the patronage of 100,000 visitors.

Visitors to Calgary have the opportunity of visiting twelve theatres.

The assessed valuation of buildings and property will undoubtedly reach the \$120,000,000 figure in 1911. In 1910 it was \$53,000,000.

Calgary has 22 miles of improved boulevards.

Calgary has twelve miles of paved streets, with an additional twelve miles to be paved in 1911. Asphalt, bitulithic, macadam, granitoid and creosoted wood block are the pavings in use.

Calgary has 55 miles of concrete sidewalks. Contracts for an additional 25 miles have been let for this year.

Calgary has the largest, most up-to-date City Hall in Western Canada. Cost \$320,000.00.

Calgary has four parks, with an area of 450 acres. Others are rapidly being planned, and will be furnished with street railway accommodation as soon as possible.

In July, 1911, Calgary had over 3,000 men on the civic pay-roll.

Over 600 commercial travelers make their home in Calgary. They represent 150 wholesalers, commission merchants and jobbers who do business in the city.

During the months of July, 1911, Calgary stood at the head of the list of Canadian cities in building activity. Permits issued for the month called for an expenditure of \$3,700,000.

Calgary's light and power plant for the first seven months of the year 1911 shows a net profit, exclusive of all necessary contingent, maintenance, interest and debenture funds, of \$55,000 on a \$600,000 investment.

Week end excursions to Banff—"The Playground of Canada"—are one of Calgary's pleasure attractions and outings.

Calgary is the most discussed city in Canada, and the centre of the commercial eyes of the world.

Calgary is now and always will be the largest city between Winnipeg and the Coast. Its ideal commercial distributing location assures this fact.

Immigrants are arriving in Calgary by the hundreds daily. All do not remain in the city, of course, but most of them settle in the surrounding districts, and thus add their quota towards sustaining Calgary in its commercial supremacy.

For the first seven months of 1911 some 1,400 sewer connections and 1,100 water connections have been made with the municipally-owned plants.

A fifty-two per cent. increase in bank clearings for the city of Calgary for the week of July 31st over the same week in 1910 is indicative of the consistent and continued growth of this city. The Calgary bank clearings during the past week amounted to \$3,902,674. For the same week in 1910 the clearings amounted to \$2,566,370, a difference of \$1,336,304 in favor of 1911, although no unusual transactions were recorded.

Calgary is the healthiest city on the continent.

Calgary offers most liberal propositions to industrial plants.

More full and complete information regarding Calgary will be forwarded on application to the Publicity Commissioner, Calgary.

STREET RAILWAY SYSTEM MUNICIPALLY OWNED AND OPERATED.

Calgary can well point with pride to its Street Railway System. Installed in July, 1910, with only 16¼ miles of tracks and four cars, it has been a revenue producer from the commencement. More cars were added as rapidly as possible, and during the first six months of its existence the system showed a net profit of \$10,001.37. In 1910 the system had 22 miles of tracks and operated 18 cars. The revenue for 1910 was \$214,778.44, with a profit of \$101,739.90 over operating expenses, or \$55,815.28 after interest, sinking fund and \$10,000 contingent account were set aside.

During the first four months of 1911, from Jan. 1st to April 30th, the revenue was \$88,336.97, and operating and other expenditures \$63,935.60, leaving a net profit, after deducting interest, sinking fund and 5 per cent. of gross earnings as a contingent fund, of \$24,401.60.

The system, as it stands at present, cost the ratepayers about \$500,000. On this investment a profit of 18 per cent. has been made.

During 1911 an additional \$500,000 will be spent for the purpose of laying 22 miles of trackage and purchasing 12 additional cars to successfully operate the extension of the system.

Calgary's Municipal Street Railway System represents an investment of \$1,000,000, and at the end of 1911 will be 38 miles in length. It is owned and operated by the citizens of Calgary.

Has made a profit from the day it was started, July 5th, 1909.

Has most modern equipment of any street railway in Canada.

Has the most up-to-date P.A.Y.E. cars on the continent of America.

Calgary's Municipal Street Railway earned a net profit in 1910 of \$60,490.00.

Net earnings were 13 per cent. over operating expenses.

Carried 4,891,384 passengers in 1910.

Provided for sinking fund, interest on debentures and all other fixed charges and declared dividend of 11½ per cent. on investment.

System will be extended 22 miles in 1911, making total mileage 38.

During unusually hard winter service was never delayed one hour by snow or frost.

Paid \$22,500 into the general funds of the city treasury in 1910.

Had a balance of \$17,577 in bank to credit at close of 1910.

System is managed by the Mayor, Commissioners and a Superintendent.

Profits for the first five months of 1911, \$36,000.00.

LIGHT AND POWER DEPARTMENT.

Municipally owned, controlled and operated.

Installed at a cost of approximately \$900,000.

Calgary has 75 miles of wire and pole line, and at least 25 more miles will be added in 1911. At the present time there are 5,300 light and power connections with the system, and more being added daily. The city is lighted with 300 arc lamps. At least 250 more will be added during 1911.

The city plant is capable of supplying 2,000 h.p. 24 hour daily service generated by steam. An auxiliary 2,000 h.p. daily service is received from the Calgary Power Co., who have a water power plant forty miles west on the Bow River. The city reserves all rights to distribute light and power throughout the city, and the rates are very low, being as follows:

Light—75c per month for the first light, 60c each additional. Meter basic, 11c per K.W.

Power—6c per K.W., with discounts for prompt payments.

It will only be a short time when all municipal wires will be laid underground in conduits. Four miles have already been laid, and the work of extending the conduit system is being rushed as rapidly as possible.

In 1910 the light and power departments netted the city a profit of \$24,000 after operating expenses, maintenance fund, sinking fund and debenture interest had been provided for.

May 130	May 97
June 159	June 107

WATERWORKS.

Calgary has gravity system of waterworks. Pure, fresh water comes from numerous streams in the adjacent Rocky Mountains, a few miles west. Piped twelve miles from Elbow River to the reservoir, which has a capacity of 16,000,000 gallons.

Water rates in Calgary are lower than 80 per cent. of the cities in the United States, and lower than a great majority of towns and cities in Canada.

On December 31st, 1910, there were some 50 miles of water mains in use, and at least an additional 30 miles will be installed during 1911. An auxiliary plant is kept in constant readiness in case of accident or serious conflagration to relieve or assist the gravity system. Three pumps, with 5,000,000 gallon capacity, are located at this plant on the Bow River. There are 4,799 connections with the mains at present, and at least another 1,000 will be made in 1911.

The water main pressure is at all times maintained at an average of 70 pounds, but for fire purposes it can immediately be raised to from 120 to 105 pounds.

Probably no other city in Canada gives more accommodation to the outlying districts than does Calgary in the matter of supplying water to consumers.

Calgary Water Power Co., Ltd. Peter A. Price, vice-president, treasurer and manager. 1st Ave W.

EDUCATION.

The public and high school department of the city is considered second to none in the Dominion of Canada. Under capable supervision, the schools under civic control have reached the highest state of efficiency. At the present time there are seventeen large eight and twelve-room schools in use. They were built at a cost of over \$600,000.

The buildings proposed to be erected and placed in use during 1911 include four large stone schools, containing eight and twelve rooms, and five small cottage schools to be erected throughout the city to relieve the congestion in the larger buildings.

In addition to the public and high schools, Calgary has two Roman Catholic separate schools, the Provincial Normal School, St. Hilda's College for girls (residential and day scholars), Western Canada College for boys (residential and day scholars), and the Calgary Methodist College, known as Mount Royal College.

At the present time there are 110 teachers in the public and high schools. Of course, this number will of necessity be largely increased when the new school buildings are completed.

Calgary has some 80 odd public school classes and five supervisors for the departments of music, manual training, drawing, drill and physical culture and household science.

In the separate schools there are 500 pupils and 12 teachers. Two more separate schools will be built this year.

Dr. A. M. Scott, B.A. (Toronto), Ph.D. (Göttingen, Germany), is Superintendent of Education.

In June, 1911, over 5,000 pupils were enrolled in the public and high schools.

FIRE DEPARTMENT.

The Calgary Fire Department is considered and acknowledged to be one of the most efficient and up-to-date in the Dominion of Canada. There are seven fire stations in the city, named as follows:

- 1 Chief of Brigade.
- 1 Assistant Chief of Brigade.
- 7 Captains.
- 1 Superintendent of Alarms.
- 1 Electrician.
- 25 Horses.
- 46 Firemen.

Equipment:

- 2 Steam engines.
- 5 Standard hose wagons.
- 1 Combination hose and chemical.
- 2 Double chemicals.
- 1 City hook and ladder.
- 1 Aerial truck.
- 1 Motor (chief's car).
- 1 Buggy (assistant chief's).
- 1 Motor chemical and squad car.
- 1 Motor combination engine and hose.
- 1 Motor hose wagon.
- 1 Motor aerial truck.
- 9,500 feet of hose.

Alarm System:

- 1 6-circuit switchboard (Gamewell).
- 1 6-circuit repeater.
- 1 Arc rectifier.
- 1 Electric tower striker (Gamewell).
- 1 Alarm bell (1,300 lbs.).
- 40 Miles wire.
- 7 Gongs and automatic punch machines.
- May-Outway Fire Alarm System (private).
- 86 Fire alarm boxes (Gamewell).
- Auxiliary bells in firemen's residences.

Contracts have been awarded for a most up-to-date motor equipment and the building of a central fire headquarters, to be located in the heart of the city. The cost will be approximately \$100,000.00.

Fire Hall No. 5, 17th Ave., corner 11th St. W.

POLICE DEPARTMENT.

Calgary's police force recently moved into new quarters, and now occupy the entire lower floor of the City Hall.

1 Chief, 1 Inspector, 1 Detective Sergeant, 2 Sergeants, 4 Detectives, 40 Constables, 4 Mounted Men, 1 Police Court Clerk, 1 Police Court Stenographer, 1 Police Magistrate, 1 Police Patrol, 4 Sub-stations.

ALBERTA

The Land of Plenty

PLENTY—of Opportunities for the Capitalist
PLENTY—of Rich Agricultural Land for the Farmer
PLENTY—of Dividends Awaiting the Investor
PLENTY—of Bargains for the Man of Small Means

THE CITY OF CALGARY

Why You Should Come To Calgary

CALGARY is the Commercial Metropolis of Alberta, and new comers to the Province make this point a stopping place before going to their ultimate destination. In many instances they are so well pleased with Calgary that they remain, which in a large measure accounts for the phenomenal growth, and which places her among the fastest increasing cities of the world.

Calgary now has a population of 50,000—and by the close of 1911 she will have 75,000—and even the most pessimistic admit she will have over 100,000 five years hence.

Many important industries are already established, making the City's pay-roll among the largest in Western Canada.

This will be greatly augmented when the five Transcontinental Railways have completed their entrances into Calgary, and have established their Workshops and Round Houses.

Manufacturers are looking to Calgary—many are already here. Natural Gas is now assured in an unlimited supply—thereby solving the question of Cheap Power.

Never before has Calgary faced a year so tremendous in possibilities, and already the Building Permits far exceed any other period in her history. The year 1911 is to be a record one, both for the Province and the City of Calgary, and the time is ripe for intending purchasers to get their money placed so as to take full advantage of future increasing values.

THE HENDERSON LAND CO.

Oats 40 Bus.

Barley 25 Bus.

Write Us for Particulars of the Best Improved and Unimproved Farm Lands

THE HENDERSON LAND COMPANY

Realty Brokers and Financial Agents

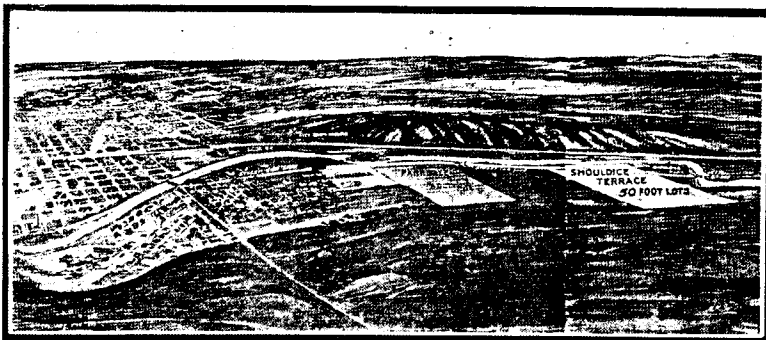

P.O. Box 1865

CALGARY, ALBERTA

THERE is no more profitable pursuit than **MIXED FARMING** if properly carried out. The raising of Cattle in Alberta has long engaged the attention of some of the most experienced Farmers on the continent. The climate is perfect, and no better herbage is to be found. There is a ready market, too, for Poultry and Dairy Produce.

Calgary's Finest Sub-Division

“Shouldice Terrace”

WE cannot impress too strongly upon intending investors the many points of advantage this beautiful property has over most Calgary Suburban Sites.

A large number of Lots have already been sold to very prominent citizens who intend building their homes in this delightful rural retreat, and thereby escape the many distractions and annoyances incident to a near-in residence in a large city.

No Lot is less than 50 feet frontage by 120 feet in depth, something very much needed heretofore in Calgary, and a sensible building restriction has been an important factor in helping homeseekers to decide on this Sub-division in preference to unrestricted properties.

Shouldice Terrace has a fine Southern exposure, is protected from the North winds—presents a beautiful view of the Rocky Mountains and the Bow River.

Prices range from \$200 per 50 ft. Lot up. Now is the time to buy, as a material advance will take place when the Street Car Service is installed this year, passing through the property.

Full Particulars can be obtained from :

Black Letters

¶ Those names appearing in BLACK LETTERS in this Directory represent the energy and push of the City. It is a pleasure for the Publishers to have the opportunity of making the public acquainted with them through these pages.

¶ Those in BLACK LETTERS are the people who accomplish the wonders in business here and make the city what it is. They recognize and support all public necessities and things needful to improve and serve a city of this magnitude. They are not drones and sponges who never support anything and gain by others' hard work and money.

¶ When you patronize those in BLACK LETTERS you patronize men and firms who will patronize you in the same broad manner in which you patronize them.

Advertise Your Good Things!

¶ Many a limping business is kept from healthful development by the firm's morbid aversion to publicity.

¶ Perhaps they are honestly so conscious of the excellence of their wares that they expect the busy world to search them out. But the busy world hasn't time.

¶ If you have a good thing to sell, proclaim it. The world wants good things, but it can't discover them in hiding places. Bring them into the open market by advertising them.
